## WORK EXPERIENCE - PHN Technology Pvt Ltd, Pune.

---

### Web Development Intern

*June 2023*

- Successfully created web pages using HTML, CSS, JavaScript and PHP, ensuring that all web pages were visually appealing and user-friendly.
- Developed and implemented new web pages using best practices in web design and coding standards, resulting in improved website functionality and user engagement.
- Collaborated with cross-functional teams to identify and troubleshoot website issues, resulting in a more efficient and effective website development process.

## Growkaro

## Social Media Marketing Startup

*A social media marketing start-up.*

- Worked as a content writer and designer for the Growkaro. Also learned how to manage social media accounts for businesses.
- Helped businesses to go beyond their goals by offering new ideas and strategies along with best results with my social media marketing and management skills.

## PROJECTS

---

- **Project:** Tourism Management Web Application  
**Description:** Developed a modern and responsive web application using HTML, CSS for styling for front-end functionality and PHP for back-end, allowing users to browse Tour Packages, book them. The application provides an intuitive user interface, seamless navigation, and efficient data storage and retrieval.
- **Project:** Website for Ice-Cream Shop  
**Description:** Developed a modern and responsive web application using HTML, CSS for styling for front-end functionality and Python for back-end with Django Framework.
- **Project:** Attendance Management Android App  
**Description:** The goal is to provide a solution for taking the attendance without using any paper or sheet with the help of JAVA and Android. Working on this project.
